

Heritage Preservation Statement

Respect People

Ravenswood was established as a mining community more than 150 years ago and forms a key part of the mining history within North Queensland. This is evident through the presence of the historic buildings and artefacts that remain within the township and surrounding areas today. Ravenswood Gold recognises the depth and significance of the cultural heritage in Ravenswood and the importance of considering impacts to cultural heritage within all aspects of our organisation.

Value High Performance

The implementation of our Heritage Preservation Statement reflects Ravenswood Gold's values and is endorsed by all levels of our organisation: our board, leadership team and all employees and contractors. We will also ensure that our business partners and suppliers are aware of our commitments to preserving the cultural heritage within and around Ravenswood.
